

We Forge Tomorrow's Acting Stars Today!

If you've ever wanted to improve your kid's acting skills, help them gain more recognition.. And convert those skills into a highly rewarding career,
We might help you.

At ClasShare, we aim to teach acting skills to your kid and perfect them by a process followed by opportunities to put those skills into practice.

I'd Like To Introduce You To ClasShare; an Individualised E-learning Platform.

Dear Parents,

If you want your kid to learn acting skills from award winning coaches so he/she can master the craft of acting, then this is going to be the most important message for you to read.

Here's why...

My name is <insert name> and I am the CEO of ClasShare.

I strongly believe that we must teach our kids focusing on academic enrichment through workforce-ready skills.

My dream of starting an E-learning platform for kids began when the pandemic started in March 2020. No one actually expected to move towards remote learning so quickly when the global pandemic hit the world.

My kids had a lot of free time and I wanted my kids to learn and master some high quality skills, rather than wasting their time on television and video games.

I struggled to find some quality academic activities for my kids. I enrolled them in hundreds of online classes but all of them lack quality and to be honest they were a bit expensive as well.

So I decided to start ClasShare with a mission of providing high quality, skill-based courses to build skills for a better future.
Our main goal is to provide affordable quality education for K12 students.

That's When I Decided to Start ClasShare For Individualized Coaching to Help Kids With their Acting skills.

Here's How ClasShare Works:

Our acting program is based on real world applications of acting techniques. We believe in utilizing project based learning theories to help our students to understand acting right from its core.
We keep our student's groups really small because we are motivated to focus individually on every student.

For instance, in one of our acting classes students were asked to act for a commercial and they were asked to work in groups.

Here's Why Our Coaching Works:

At ClasShare, we share exactly the same secrets, techniques and processes which are being used by top actors to prepare for their roles.

If your child starts early and once he/she has that acting experience, they'll be ahead of many other actors of their age group.

We provide a platform for our students to showcase their acting talent. We connect our top students with casting directors, recruiters and agencies, so they can gain visibility right from their young age. We also handle marketing of our students.

Our classes are designed in a way to fit into our student's schedule. We work individually with each other and provide them with assessments to nurture their acting skills and creativity to transform them into leading actors.

Here's What's Included In It:

Our Acting Program comes with:

- Individualized Learning and Coaching at an Affordable Price
- Certified Program Tracks
- A Platform to Showcase Talent
- Marketing Of Our Students
- Practice Based Classes to Master Acting

And the best part is that it is really affordable!

ClasShare makes acting a lot easier!

When kids start to learn acting they actually face a lot of obstructions and limitations. What they need is an expert to guide them through all of these struggles.

Our Coaches help their students to recognize and overcome the problems that they struggle with. We develop and improve their acting skills.

Our teachers carefully craft customized scripts for each kid so that they can transform their acting skills in the shortest amount of time.

We have developed a system to help our students to master and practice these 3 pillars of acting:

- Making Characters More Believable
- Physical Acting- The use of voice and body
- Synthesis and Integration- Combining Inner and Outer Skills

OUR PLANS:

So you're probably wondering how much this costs. Well, normally we charge a different price for our plans but we are offering a sale right and you can actually save upto 20% on our monthly plans.

Choose Your Plan
